

NO SWEAT

You'll
Love
your new
Polar Seal **door**

Made in Michigan

Since 1950

Made up north, for up north:
Meets winter head on

DOES

- Resist condensation more than other doors
- Glide smoothly for a lifetime
- Deter break-ins with extra security
- Save energy as only a Michigan made door knows how
- Enrich with more color, woodgrain options and decorator glass choices

DOES NOT

- Fog up, frost up or freeze up in winter like doors with aluminum or steel parts
- Leak air or water like cheap imitations
- Use the cheapest rollers, screens and parts money can buy
- Drip water inside the house
- Leave you with no service

The roller-glide system

- 4 tandem operating steel adjustable large diameter wheels.
- Bullet-proof polycarbonate roller track outperforms aluminum for a lifetime of easy operation.
- Heavy-duty aluminum screen frame with metal rollers on top and bottom that prevent screen from jumping the tracks.

Vinyl colors

Earthtone White Tan

Security is a standard

- Highest rated multi-point lock on the market; passes 2,000# on forced entry tests
- Vent latch allows fresh air in without allowing easy entry; or acts as a third lock in the closed position.
- All tempered glass adds strength and safety.
- 20/10 non-prorated warranty.

Passed
California forced
entry test

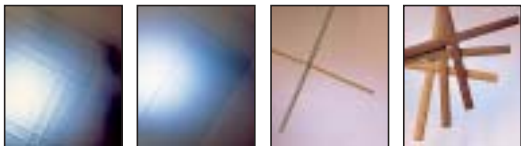

Standard sizes

- 5' 59-1/4 x 79-1/2
- 6' 71-1/2 x 79-1/2
- 8' 94-1/2 x 79-1/2
- 9' 105-1/2 x 79-1/2

Order special sizes, we'll build custom doors up to 16' wide!

Polar Seal's decorator glass choices

Prairie V-groove Colonial V-groove Brass Caming Contour with Wood

Energy efficiency is a standard

- LowE', Argon and SuperSpacer® reduce cold conduction through glass.
- Thick tall double weatherstripping protects both sides of the door.
- Fully welded sturdy walled vinyl stands up to harsh winter wind.
- Deep pocket interlocking meeting rail seals sashes together tightly.

Made in Michigan
